Use the projector teaching time and myke and speakers

encourage cooperative learning among students. use digital tools and presentation for explaining topic. class time should increase .

B.ed

They should use the Technology as the time we are in is the IT age aur AI age. & Teachers should take time in explaining the topic, i have seen many teachers saying that the teacher's lectures are available on YouTube and this means the syllabus has been finished , as you know we are in Post covid Phase , the students concepts have not been clear thoroughly, so the teachers should emphasise on the quality of learning

More curricular activities should be introduced.

Making discipline

It should be more student friendly . Also much of technology should be there the old things are to be updated with modern ones so that we could learn thing in more effective way. Timely softskill classes can also be a good thing. All lectures should be 2way 😊
