ENERGY POLICY DOCUMENT

Policy Statement

At the core of our commitment lies the recognition of the interconnectedness between energy usage and environmental sustainability. Our policy statement on energy and environment conservation outlines the following principles and objectives:

- ▶ To sustain an eco- friendly environment.
- ▶ Minimize consumption of energy in the college campus.
- ▶ To use alternative source of energy number.
- ▶ To create awareness among students, faculty, staff and public about sustainable use of energy and environment conservation.

Guidelines for Energy Conservation

1. All electrical and electronic equipment bought must be from the standard and certified company with Energy Star Rating.
2. Electrical Lights and fans can be used whenever required and switch it off as one leaves the room.
3. Make use of Natural light as much as possible by keeping the windows open.
4. Each class ant both Computer Lab has in charge to check whether the electrical and electronic equipment are switched off when not in use. Peon floor in-charges ensure to check all rooms and laboratories and switch off lights and fans when not in use.
5. Phase wise replacement of old fans with energy saving fans.
6. Now only LED lights are used College.
7. Computer to be turned off at the end of the day.
8. Computer, Printers, Photocopier machines to be in the standby mode when not in use.
9. Use of Solar energy.
